DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

1st election requirement:

- ***Species 1A:*** represented by Figure 2.
- ***Species 1B:*** represented by Figure 3.
- ***Species 1C:*** represented by Figure 4.

2nd election requirement:

- ***Species 2A:*** represented by Figure 5.
- ***Species 2B:*** represented by Figure 6.

3rd election requirement:

- ***Species 3A:*** represented by Figure 7.
- ***Species 3B:*** represented by Figure 8.
- ***Species 3C:*** represented by Figure 9.

4th election requirement:

- ***Species 4A:*** represented by Figure 11.
- ***Species 4B:*** represented by Figure 12.

2. For each of the four election requirements, applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.
3. Applicant is advised that a reply to this Office action must include an identification of the species that is elected consonant with each of the four requirements, and a listing of all claims readable on the elected species, including any claims subsequently added, either in response to this Office Action or in any future amendment. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.
4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
5. Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

6. Applicant is advised that the reply to this requirement, to be complete, *must* include an election of the invention to be examined, even if the requirement be traversed (37 CFR 1.143).
